

INDIAN SCHOOL , AL GHUBRA

COMMERCE DEPARTMENT

VISIT TO MUSCAT SECURITIES MARKET

The Commerce Students of class 12 from Indian School, al Ghubra had a rare and unique opportunity of visiting the Muscat Securities Market on Thursday, the 1st of October 2009. The visit began with an onslaught of a multimedia presentation about the CMA, MSM and MSDL by the Information & Awareness Department at their impressive auditorium. Subsequent to the lecture, the students accompanied by two teachers headed to the modern and sophisticated Trading Hall

of the stock exchange. The students were explained about the Bid, Offer and Trading Volume, etc. as displayed in the huge screen kept at the trading hall.

While the students learn the theory input about Stock Exchange in their Business Studies subject, visiting the trading floor and getting a practical insight into the

functioning of stock exchange was a real lifelong learning experience for our students. They were also briefly exposed to how to calculate the Index of stock market and trading of rights in the case of rights issue.

Overall, it was an informative and purposeful visit to the MSM for the Commerce Students of the ISG
