Dear Sir/Madam,

Sub: Updating of school medical records of your ward

If there has been any change in your child's medical history, as submitted earlier to the school, you are requested to meet the school nurse in the First Aid Room.

Kindly update your child's school medical record (**not the immunization**) as soon as possible.

If we do not hear from you in this regard, it will be presumed that there is no change in his/her medical history. **Please note** the updated information will help us in providing prompt medical assistance to your ward in case of any emergency.

Those who are submitting the updated medical reports half yearly may do so in the months of August and January respectively.

The Nursing Staff will be available from 7:30am to 1:00pm during Ramadan and till 3:00pm post Ramadan on week days in the school First Aid Room.

With regards,

Principal
